A&D portable scales

Economical but exceptional, these compact portable scales from A&D weigh with a lot of accuracy, even if they are so small and lightweight that you can hold them in just one hand. They are strongly designed and can be used for both industrial applications and in laboratories.

Aquamerik gives you a choice between 6 different models to answer your needs. Solid, the housing is designed to resist impact caused by handling, the front panel is protected against dust and liquids. The easy-to-read LCD display gives the selected unit measure, stability and overload point.

Printer available in option with your portable scale. The A&D scales give accuracy and perfection at the lowest prices you can find. Just compare!

EJ Newton series

Affordable and built to last, these compact scales from the EJ Newton series are efficient tools that can be used for personal purposes, pharmaceutical, educational and other applications.

With thousands of scales and installations in laboratories around the world, the EJ Newton series has proven over the years to be a reliable and respected household name among researchers.

SC & *SE* series

The SC and SE platform scale series include a waterproof stainless steel base, pillar and weighing pan. Its waterproof and completely sealed indicator gives longer autonamy to the main battery which eliminates the need of alternative current during applications in harsh weather conditions.

SC series

Thanks to the latest technological innovations, the scale can operate up to 4500 hours straight with 6 D-type batteries. Can measure in pound (lb), kilogram (kg) and ounce (oz).

SC = stainless steel body
SE = metal frame body
